

28 January 1958

**Subject:** Contract OS-100, Amendment No. 1, Acceptance and Transmittal

**Reference:** (a) Letter #23598 dated 21 January 1958, RRC to WCM  
(b) Conference 10 January 1958, Washington, D.C., WCM, GK

**Dear Sir:**

Please find attached hereto the executed original and one (1) copy of the subject contract amendment representing our acceptance of a final price for the period ending 30 June 1957.

Concerning Paragraph 5 of the subject amendment, we wish to advise you that we will propose certain modifications and additions to the terms and provisions in the contract for the period from 1 July 1957 to contract completion. These proposed modifications and additions are a part of our formal proposal to establish a firm fixed monthly billing price for the balance of the contract and are being forwarded under separate cover.

To the best of our knowledge and belief, there was no government property furnished to us for the performance of this contract during the period ending 30 June 1957, (Provision 23).

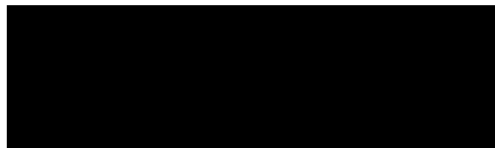

No copyrightable material has been produced or composed under this contract during the period ending 30 June 1957, (Provision 24).

In the reference (b) conference it was agreed that the settlement of the field service contracts do not contain a precedent in either price or profit and the element of risk as well as economy, efficiency and ingenuity will govern in the equipment contracts.

Very truly yours,

HYCON MFG. COMPANY
